Comments: Collaboration information on Nez Pierce Clearwater Forest revision.

I support the no action alternative with the following changes: Hoodoo area will be designated as semi primitive motorized instead of RWA. Access would be limited to snowmobiles, snow bikes and mtn bikes. North Fork Spruce-White Sands and Sneakfoot Meadows RWA will be eliminated.

My family of four want to continue to enjoy the forests as they are. Closure isn't management. We need to stop restricting access to our future generations. My boys and their children deserve to have same access that I have had and generations be me have had. We have plenty of unused restricted areas. Plenty of presein lands have been put aside. We should be opening not closing. It doesn't matter if we use this land once this year or 30 times this year. The taxes we pay are for management, not closure. These are not private lands they are public lands. Public, means all access, not partial access.
