Comments: Manage and Protect

Dear Zach Peterson:

Thank you for the opportunity to comment on the Nez Perce-Clearwater National Forest proposed forest plan revision.

I want my National Forests managed for wildlife habitats, Clean water and clean air alone. Not for logging, road building and economic exploitation by special interest neighbours.

Please ban All Terrain Vehicles ATV's and snowmobiles. I want my public owned forest managed and protected for wildlife habitat. It is their home.

Call off the forest plan revision. Cancel it. Keep the current plan. Toss the revision please.

Thank you,

Deanna J Woods
