Title:

Comments: My wife and i are both Idaho natives and avid users of the forest year round. We enjoy snowmobiling and OHV as well as camping and hiking. I believe that Alternative X as described in the DEIS is the best and only opportunity that provides for motorised use in the forest. It is our intent to continue to enjoy the Nez-Perce Clearwater forest in all the traditional ways that we have in the past. Both snowmobiling and OHV use has grown significantly in the past decade. I think that by continuing to add new trail systems and not closing any any old ones will increase the opportunitys for everyone. Enjoying the outdoors is what we do in the great northwest and it is a vital part of our economy. We have enough wilderness already now we need to develop forest that can be used by all for many generations.
