Comments: thank you for the opportunity to comment on the forest plan. I first began visiting the Great Burn recommended wilderness area 54 years ago and have done so every year since. there I have found extreme solitude, viewed many rare wildlife species and breathtaking scenery. I strongly urge you not to reduce the recommended wilderness area and not to cave in to additional mechanical encroachment of this area. An area as spectacular and remote as this must be preserved and saved for the wildlife and future generations.
