First name: Leah

Last name: Uptmor

Organization:

Title:

Comments: I disagree with alternatives W, Y & Z. Okay to alternative X. This land has been part of my life, my ENTIRE life. It is where I learned to walk, ride a bike, drive vehicles and so many other skills. My fondest memories are in this area, most of all a memorial of my late uncle for serving and protecting this wilderness area. We use the area whenever possible, year round. Eventually someday I hope to be married in the Clearwater National Forest as it has been that special of a place in my lifetime. We are outdoorists who understand and respect the land. We work our normal jobs in the timber industry and understand the value of protecting certain areas but also keeping these areas open for use and stimulating the environment. We leave the place better than we found it. Picking up any litter or trash we see, have put out potentially dangerous fires and give the animals their space.

Please don't take away my sacred childhood place.
