Comments: Thanks for allowing my comment. I have reviewed the proposed alternatives and very much prefer alternative X as described in the DEIS. This alternative protects snowmobiling in the Great Burn area where I use to ride with my family. Yes my family and me are long time snowmobilers. We also ride motorcycles and alternative X also provides for increased motorized recreation. Me and my family love the support motorized Recreational opportunities, especially in this area of Idaho. We support the local communities by purchasing goods and services from locals. Thanks for considering my comments.
