Comments: I have recently reviewed the released Nez Perce-Clearwater Forest Plan Revision Draft Environmental Impact Statement and Draft Revised Forest Plan. None of the alternatives presented reflect the management I would like to see implemented for the Hoodoo Roadless Area. Please accept these comments into the formal record.

I love wildlife and being outdoors with wildlife and hiking and wildlife photography and camping with quiet nature all around!

There isn't, sadly. Hopefully there will be in the future!

I would like as much of the Great Burn protected as possible. Ideally the whole 151,874 acre Hoodoo Roadless Area to be protected.

Motorized vehicles in the wild scare wildlife, sometimes resulting in injury and death. It also wrecks the peace and beauty for other humans. It is further smelly and scary for others.

The plan should recognize Cayuse Creek and Kelly Creek and all forks as Wild and Scenic River status as they are breathtaking and lovely!

The whole area is a precious untouched resource to be enjoyed and passed down to future generations. Any introduction of man made things will cause present and future damage. Please keep the whole area pristine for now and forever.

Thank you for working to create a forest plan that will care for the forest and all its inhabitants including us human visitors.
