Title:

Comments: I have recently reviewed the released Nez Perce-Clearwater Forest Plan Revision Draft Environmental Impact Statement and Draft Revised Forest Plan. None of the alternatives presented reflect the management I would like to see implemented for the Hoodoo Roadless Area. Please accept these comments into the formal record.

To keep our sacred wilderness areas as they were intended to be is a task in which we must not fail . This is for our children and their children for generations to come . Please do not fail us .

Experiences in the wilderness are very special and individual . I have had eagles hover over my head . I have seen Wolverines from across rivers. Very special life altering experiences

Protect all of it

Winter access alters wildlife habitat it is a bad thing

All of them

All of our wild lands need protection

Thanks to those who seek to protect these special places for the next generations to
