Title:

Comments: I have recently reviewed the released Nez Perce-Clearwater Forest Plan Revision Draft Environmental Impact Statement and Draft Revised Forest Plan. None of the alternatives presented reflect the management I would like to see implemented for the Hoodoo Roadless Area. Please accept these comments into the formal record.

When I am in the Wilderness, I'm there to enjoy the wildlife, peace and QUIET of Nature - NOT noisy, polluting engines driven by loud, reckless, inconsiderate idiots that just want to tear up the forest!

4 wheel drives, ATVs & motorcycles tend to be driven by people more intent on wrecking the area for their own selfish pleasure than allowing Nature to exist and other people to enjoy it!

Please keep the entire area WILD, allowing Native Species to resettle the area and respectful hikers to enjoy those species without harming them.

Motorized traffic is LOUD, polluting, and disruptive to wildlife. This is especially true in Winter, when animals are more stressed by weather and food scarcity. Please require all visitors to do so by FOOT!

The rivers and creeks should be allowed to stay Wild and Scenic to help them recover from the burn.

Nothing additional to add.

Thank you for allowing the Public to weigh in on the plan - please take these comments into account when deciding the final plan.
