First name: Peter

Last name: Muennich

Organization: Rocky Mountain Goat Alliance

Title: President

Comments: Rocky Mountain Goat Alliance (RMGA) is in support of the Hoodoo and Mallard-Larkin mountain goat ranges to remaining as a Recommended Wilderness Area in an effort to continue to protect a declining goat population from motorize access detriments. We believe the area losing its Wilderness designation could be beneficial to the state's biological field work, but RMGA prefers the current security of the Recommended Wilderness status due to the concerning decline of the area's mountain goat numbers.
