Comments: I have recently reviewed the released Nez Perce-Clearwater Forest Plan Revision Draft Environmental Impact Statement and Draft Revised Forest Plan. None of the alternatives presented reflect the management I would like to see implemented for the Hoodoo Roadless Area. Please accept these comments into the formal record.

I am a long time Montana resident who cares deeply about the wild areas that are left! We can't afford to lose any more of these life giving places so that people with vehicles can ride on up for a view. It's a very short-sighted view that would want to see more wild areas opened up to vehicles and all the disturbance and destruction it will inevitably cause.

Hiked to amazing lakes and peaks. An amazing area that needs protection.

All should be protected.

There are plenty of other areas to go for mechanized travel.

Not too familiar with the rivers. I know that any riparian areas deserve the highest level of care and protection.

Make sure that no more roads are put in, and obliterate roads that are not needed to prevent sediment runoff.

I am appreciative to all who were a part of getting this plan to this point.
