Title:

Comments: I have recently reviewed the released Nez Perce-Clearwater Forest Plan Revision Draft Environmental Impact Statement and Draft Revised Forest Plan. None of the alternatives presented reflect the management I would like to see implemented for the Hoodoo Roadless Area. Please accept these comments into the formal record.

I am writing in regards to the Nez Perce-Clearwater National Forests draft Forest Plan. Shrinking or eliminating the Great Burn Recommended Wilderness and allowing motorized and mechanized use will have huge negative implications for quiet recreation and might be devastating for several sensitive wildlife species, including wolverines and mountain goats. Allowing snowmobiling across a larger portion of the Great Burn is likely to have devastating consequences for mountain goats and others. Please do not allow this to happen.

This area needs to be protected for future generations alike.

None of the animals in their natural environment should be disturbed

Animals inhabit these areas and should be left in peace not have vehicles going through the only home they have

All of the Kelly Creek and surrounding areas should be protected

Please leave this land untouched it is the right thing to do

Thank you for keeping this land wild
