Comments: I have recently reviewed the released Nez Perce-Clearwater Forest Plan Revision Draft Environmental Impact Statement and Draft Revised Forest Plan. None of the alternatives presented reflect the management I would like to see implemented for the Hoodoo Roadless Area. Please accept these comments into the formal record.

Lets protect our wild places and the ever threatened wildlife that live there by keeping them free from motorized recreation.

We need to protect all of our remaining natural habitat

The Great Burn should remain as the wilderness it is.

Motorized recreation forever changes the character of natural lands, and will serve to displace and disturb wildlife.

Thanks to those that took the effort to create the plan to protect this valuable wild space
