Title:

Comments: I have recently reviewed the released Nez Perce-Clearwater Forest Plan Revision Draft Environmental Impact Statement and Draft Revised Forest Plan. None of the alternatives presented reflect the management I would like to see implemented for the Hoodoo Roadless Area. Please accept these comments into the formal record.

I oppose any motorized use of the Great Burn Wilderness, AKA Hoodoo Roadless Area! Whether it be Winter or Summer it does not matter. This area must be protected per our Wilderness Laws to safeguard the wildlife population and the wilderness experience.

I have not had the opportunity to hike in the area as yet but plan to soon.

I would like to see the entire area in question be managed as Wilderness!

Motorized use will harm wildlife populations irreparably whether it be Winter or Summer, it also destroys the wilderness experience.

Wild and scenic rivers should be forever. I support this for both Cayuse and Kelly Creeks, along with all their tributaries.

Please keep all these areas as Wilderness! Thank-you.

Thank-you again for all of your efforts to keep the areas as designated Wilderness!
