Title:

Comments: I am writing here in support of maintaining bike access to the Heart Lake area and asking for rules which prohibit resource extraction in this area also be maintained.

Specifically, please maintain access to the State Line Trail #738, restore access to miles 20-27 where it was closed in recent years, and keep single track access to existing routes.

I have traveled the single track in this area many times in the past and wish to resume doing so in the future. The terrain in this area poses a significant challenge for bicycles and because of this travel speeds are quite slow. The difficulty also will discourage most of the bike community from venturing to this area. For these reasons, there is little if any opportunity for user conflict based on mode of travel.
