Comments: I have recently reviewed the released Nez Perce-Clearwater Forest Plan Revision Draft Environmental Impact Statement and Draft Revised Forest Plan. None of the alternatives presented reflect the management I would like to see implemented for the Hoodoo Roadless Area. Please accept these comments into the formal record.

My name is Russell Walters. I have been hunting, fishing, hiking and enjoying the outdoors in general for over 40 years. I feel that it is very important to keep as many places wild as we can. Once they are gone they can't be brought back and we are constantly losing these amazing places.

Please manage the Hoodoo Roadless area as Recommended Wilderness.

Winter is a trying time for wildlife and they should be left alone during this hard time. Keep the snow machines out of this area.

We should be putting as many river and streams as we can in wild and scenic status. Riparian areas are key to so many animals survival. I'm tired of seeing more and more trophy houses being built while wildlife and scenic beauty suffers.

Thank you for your efforts in creating this plan. We have to act now to save our wild places and you are helping to achieve that.
