Title:

Comments: I have recently reviewed the released Nez Perce-Clearwater Forest Plan Revision Draft Environmental Impact Statement and Draft Revised Forest Plan. None of the alternatives presented reflect the management I would like to see implemented for the Hoodoo Roadless Area. Please accept these comments into the formal record.

I live in MT part time while traveling for work. To spend a few days or hours in an area away from the impacts of humans is vital for a healthy population.

Hiking in an area that is not visited by motor's or being too crowded is a great experience.

I would like to see this area be totally protected and preserved as a Wilderness Area

As one area that supports wolverines it's important that they have an area that is free from winter motorized use.

Rivers/creeks and any bodies of waters that are included in the boundaries of wilderness should be encompassed in Wild and Scenic status as well.

Taking the outdoor industry and the over crowding in our national parks it's critical we set aside more land today so we can enjoy unspoiled environments for many generations to come.

Thank you for preserving my land.
