Title:

Comments: I have recently reviewed the released Nez Perce-Clearwater Forest Plan Revision Draft Environmental Impact Statement and Draft Revised Forest Plan. None of the alternatives presented reflect the management I would like to see implemented for the Hoodoo Roadless Area. Please accept these comments into the formal record.

We live in a time where it is becoming painfully clear what the ultimate consequences are of mankind ongoing assault on the natural world. It is critical we preserve the few remaining road less areas in their natural state. Please manage the Hoodoo road less area as the wilderness it is and prohibit all exploitation including mechanized use.

As a back country skier I have seen an increase in illegal snowmobiling and witness the disturbances it creates for wildlife.

Please manage the entire area as wilderness.

Please consult the MT snowmobiling association site , specifically the map showing where snowmobilers can legally go. We do not need to open sensitive areas to more motorized use.

Please designate Cayuse creek and Kelly creek as wild and scenic.

Please manage the area for quiet recreation only.

Thank you for looking into this important issue.
