Title:

Comments: I have recently reviewed the released Nez Perce-Clearwater Forest Plan Revision Draft Environmental Impact Statement and Draft Revised Forest Plan. None of the alternatives presented reflect the management I would like to see implemented for the Hoodoo Roadless Area. Please accept these comments into the formal record.

I am a 3rd generation Montana who cares deeply about the wilderness of this great state. I enjoy hiking, cycling, and boating. I volunteer to care for our wilderness on a regular basis its important for people to get outside and the animals and plants to thrive!

I have hiked in various places and love Heart lake, among many other special spots. It's just so wild and vibrant!

I would like to see the Great Burn remain a roadless area. This is important for the animal populations, and for us, as humans, to preserve a healthy planet.

Snowmobiles are great but they frighten and stress winter animals populations already dealing with food scarcity and bitter cold conditions.

In my personal opinion, every single river I have seen in the area is wild and scenic!

Protect responsible public access.

Thank you for the hard work and extensive research and planning you are putting into this management plan. It means so much to us who use these beautiful and majestic areas.
