Comments: I have recently reviewed the released Nez Perce-Clearwater Forest Plan Revision Draft Environmental Impact Statement and Draft Revised Forest Plan. None of the alternatives presented reflect the management I would like to see implemented for the Hoodoo Roadless Area. Please accept these comments into the formal record.

Our wilderness resources have shrunk and continue to shrink. Please do not pull more acreage out of wilderness study areas. Study after study shows the public wants more not less wilderness. Please respond positively to our desires.

I've hiked and biked the fringes of this area a few times. It has the values that need preserved.

I would love to see the area managed as recommended wilderness.

Research shows motorized vehicles impact endangered species along with diminishing the area as wilderness. Please keep all motorized use out of the area.

Please keep all of the rivers and their tributaries pristine.

Thanks for keeping the area wild!

I know putting these plans together take a lot of effort with divergent opinions. However, it's time we set limits to where development and motorized use can take place.
