Title:

Comments: Please provide access for human powered bikes into your Forest Management Plan. Specifically on the State Line Trail 738 and other regions of the Nez Perce - Clearwater National Forest. And consider restoring access to Miles 20 -27 that were taken away from us. Mountain bikers have minimal to no impact to trail use. And in fact, we do a lot of maintenance and tree clearing. MTB Missoula is always looking for projects and partnerships!

Much Appreciated!

Mike
