Title:

Comments: I have recently reviewed the released Nez Perce-Clearwater Forest Plan Revision Draft Environmental Impact Statement and Draft Revised Forest Plan. None of the alternatives presented reflect the management I would like to see implemented for the Hoodoo Roadless Area. Please accept these comments into the formal record.

We've got to keep a few last remaining areas untouched by motors.

I would like to see the entire area designated as Wilderness.

There are plenty of non-motorized ways to enjoy the backcountry in the winter - snowshoeing, skinning, walking, cross country skiing. Motors and their noise disrupt all of that for everyone else (wildlife included). Plus the use of motors and fuels contributes to climate change.

The Wild and Scenic Rivers system is such an essential part of river policy and I would love to see all of these rivers become protected. Water is all connected, so ensuring clean and healthy river streams here will reap benefits beyond just these sections of river.

Thank you all for having the foresight and determination to influence and shape these policy decisions. The earth, wildlife, forest, rivers and people will all benefit from this wilderness designation.
