Title:

Comments: I have recently reviewed the released Nez Perce-Clearwater Forest Plan Revision Draft Environmental Impact Statement and Draft Revised Forest Plan. None of the alternatives presented reflect the management I would like to see implemented for the Hoodoo Roadless Area. Please accept these comments into the formal record.

Areas established for Americans to enjoy our natural wonders as they had been for millions of years cannot be what they are with motorized vehicles running throughout the boundaries of the wilderness. Do you understand???? Have you every been in one of these beautiful places??? Why don't you try it before allowing such things that harm these places.

The quiet...the beauty...the rare opportunity to experience this world before "civilized" man.

Wilderness the Hoodoo Roadless Area is today. Wilderness is the way it should stay.

No motorized vehicles should ever be in a wilderness area ever.

The rivers and waterways within this wilderness are worthy of Wild and Scenic River status.

Protect, Protect, PROTECT!!!

To those who developed the forest plan, please accept our thanks and gratitude for your efforts and unwavering determination.
