Comments: I have recently reviewed the released Nez Perce-Clearwater Forest Plan Revision Draft Environmental Impact Statement and Draft Revised Forest Plan. None of the alternatives presented reflect the management I would like to see implemented for the Hoodoo Roadless Area. Please accept these comments into the formal record.

I am retired, living in Red Lodge, MT and love back country hiking in the Absarokee Wilderness area. My preference is more Wilderness areas. Within the next couple of years, I look forward to visiting the Nez Perce-Clearwater National Forest and the Recommended Wilderness areas.

I hope the entire 151,874 acre Hoodoo Roadless Area continues to be managed as Recommended Wilderness. Preference is to go ahead and designate it as Wilderness, so we do not have to go thru this again!

Please remember the reasons Yellowstone National Park banded snowmobiles for so many years. The snowmobilers were virtually unregulated going many places disturbing wildlife and made a mess. When YNP allowed snowmobiles back they had to be guide led groups and 4 cylinder engines.

Cayuse Creek and Kelly Creek with all forks would be wonderful additions to the Wild and Scenic River system.

I understand that Forest Management Plans are a huge effort by many people. Thank you for all you do!
