Title:

Comments: I have recently reviewed the released Nez Perce-Clearwater Forest Plan Revision Draft Environmental Impact Statement and Draft Revised Forest Plan. None of the alternatives presented reflect the management I would like to see implemented for the Hoodoo Roadless Area. Please accept these comments into the formal record.

while the intent to open up wilderness to other groups, we feel your actual intent is money. Either you are receiving money from groups pushing this or commercial entities wanting access. This is the wilderness not a policed managed are playground,, as a trail rider we expect no assistance we are roughing it. The outfitters are taking unskilled groups on horse/mules. To add motorized vehicles on these 1 to 2 foot trails is ridiculous.. it won't be a biker hurt when they come barreling down a mountain and surprise a group. Critters will be going everywhere to get away from the evil thing. Next whats next widening the trail to accommodate wheelchairs or buses.. stop let the wilderness stay wild as possible.. we interfere with nature enough keep this land untouched. I know some will state we have as much right as outfitters to see the wilderness but really is that their intent to preserve the area or take over. Why does the government have to interfere with something that works.. or you going to take over reservations next for cycles

Stop just stop

Outfitter took out 6 pack mukes 6 customers.. back packers clueless of trail etiquette heard us or saw us before we saw them,, backpackers decided to hide behind trees leaving backpacks on the ground. Horses and mukes knew something was in the trees and didn't like the bags just on the path. We had to get off holler for the goofball to step ot, get their bags, the old outfitters were prepare to shoot.. we didn't know what happened.. where they were or if they were going to do something intentionally.. so backpackers are atheist a bit noisy.. ebikes are not and go 20plus mph.

keep it wilderness to gas or electric powered tools or vehicles

no,, walk in its wilderness,, be tough and such it up buttercups

all rivers, creeks

na

I think they do a great job fighting ignorance of the public and private enterprise.. and dealing with the illogical government manag
