Comments: I have recently reviewed the released Nez Perce-Clearwater Forest Plan Revision Draft Environmental Impact Statement and Draft Revised Forest Plan. None of the alternatives presented reflect the management I would like to see implemented for the Hoodoo Roadless Area. Please accept these comments into the formal record.

Please keep the Great Burn Area roadless. There are more than motugh miles of roads to explore. The Grwat Burn Area is sn extrodunary olace that requires protection for us and future generations.

I have nothing to share here.

Please protect the entire 151,874 acres from roads.

The umpact in olants and animals mat get studied and glossed over but we all need the wilderness.

No! Nothing good can could come fromthat. Noise, air pollution and harrassmebt of wildlife. Especially since the USFS does not have the resources to monitor and manage use of the land!

Beautiful, wild and with fish. All of the tributaries are gems to be protected.

Hasn't this administration done enough damage? Once the wilderness is gone to noise and cars and people, we will never get it back.

Thank you for protecting we mskes Montana great.
