Comments: I have recently reviewed the released Nez Perce-Clearwater Forest Plan Revision Draft Environmental Impact Statement and Draft Revised Forest Plan. None of the alternatives presented reflect the management I would like to see implemented for the Hoodoo Roadless Area. Please accept these comments into the formal record.

I've hiked in this area for years. And am familiar with the wildlife issues at stake.

This area has struggled to come back from the fires over a century ago. But it is apparent it represents some of the best of nature's resurgence. The wildlife that have made this area their home deserve protection. There is no necessity to make more habitat for roading. But there is necessity to protect the few areas of Montana that are protected for wildlife and quiet, natural uses.

I support MWA's roadless recommendations.

This is simply unneeded. There is no reason to encourage further over-snow access. There is already an abundance.

I am not that familiar with the full course of these watercourses, so will not make any statements concerning them.
