First name: Jenny

Last name: Uhling

Organization:

Title:

Comments: Hello, my name is Jenny. I have a personal attachment to this land. I was born in Northern Idaho, and was raised in the outdoors my whole life. My parents are teachers so we spent the summer months and every fall and spring weekend camping and at our cabin. I truly believe this is the peoples land and it belongs to them. I understand that this measure is being done with the hopes of preserving wildlife and the land. But if we dont have access to the land, and I cant bring my children there in the future to teach them to love and respect the land the same way I learned, then that would be simply devastating. I am 23 years old, and I love that area of land, Ive spent countless hours all over in Burn and surrounding area. I dont want to see it or any of the land near it shut down. And I know a LOT of others who feel the way that I feel. This is truly something I am very passionate about. I vote for No Action Alternative.
