Comments: I have recently reviewed the released Nez Perce-Clearwater Forest Plan Revision Draft Environmental Impact Statement and Draft Revised Forest Plan. None of the alternatives presented reflect the management I would like to see implemented for the Hoodoo Roadless Area. Please accept these comments into the formal record.

It is one of the largest roadless areas in the Lower 48 states and provides necessary habitat for dispersing grizzly bears.

I want to see the entire 151,874 acre Hoodoo Roadless Area continue to be managed as Recommended Wilderness.

There are plenty of other places where recreational motorists can visit. We need to preserve the wilderness character of this area and keep it non-motorized.

I'd like to see Cayuse Creek, as well as Kelly Creek and all of its forks recognized as Wild and Scenic.

Thanks for your effort in creating the forest plan but I personally feel that it can be improved upon.
