Comments: I have recently reviewed the released Nez Perce-Clearwater Forest Plan Revision Draft Environmental Impact Statement and Draft Revised Forest Plan. None of the alternatives presented reflect the management I would like to see implemented for the Hoodoo Roadless Area. Please accept these comments into the formal record.

Im just a person who believes in the importance of treading lightly and that it is critical to humanity to protect some of our last remaining, in tact wild areas like the Great Burn. Once changed it can never be undone.

...

Please continue to manage this land in its entirety as recommended wilderness.

The roadless area should remain in motorized to protect the peace, quiet, natural beauty, and ecological character of this area.

Thank you for your efforts to create this plan and for taking into account the perspective of people like me.
