The Heart Lake Loop in the NP Clearwater is an amazing ride. Its challenging, remote, rocky and beautiful. Big backcountry rides like this, getting up into the alpine and looking out onto the vastness of montana feed my soul and make me feel alive. Please allow continued access to this ride by maintaining bicycle use on the Stateline trail from Hoodoo Pass to Heart Lake Trail. The Stateline Trail also provides a bikepacking throughfare for multiday trips connecting from Idaho. This accommodation can be accomplished by a small boundary adjustment. This leaves most of the Great Burn RWA intact and continuous.

The mtn bike community has shown itself to be great land stewards, maintaining trails and limiting user conflict with education and thoughtful use.

Public lands belong to us all and its time bikes got a fair shake.

Thank you
