Comments: Great Burn Comment.

Hello. I am writing this to comment on the Nez Perc Clearwater National Forest Plan. I enjoy both Mountain Biking and Snowmobiling in this area and feel there is no negative impact or user conflict on the area from these two activities. These user groups continue to lose access to our National Forest and are forced to be confined to smaller areas which then does prompt user conflict. Reclassifying the current HooDoo RWA as semi primitive motorized access limited to Mtn Biking and Snowmobling. Eliminating North Fork Spruce,White Sands RWA

Sincerely

Laurie Eggleston
