Comments: The Great Burn Wilderness

To whom it may concern: I strongly urge you to maintain the existing protections for the Great Burn wilderness. I have personally visited the wilderness and enjoyed it's solitude characteristic as well as experiencing the amazing wildlife that it preserves. It is truly a gem which we need to keep in perpetuity for our children and grandchildren's sake. Any evidence of mountain biking, e-bikes, or ORV would devastate this pristine area. I urge you to keep up the wilderness protection. Thank you. Laurie Kerr
