First name: Donald W.

Last name: Jacklin

Organization:

Title:

Comments: My name is Donald W. Jacklin, and I wish to provide comment regarding the Dead Laundry - Proposed Treatment Units, within the Laundry Ridge area.

I strongly support the proposed project, and urge your acceptance of same.

The urgent need to reduce fire hazard overgrowth makes accomplishment of this project imperative.

The continued restriction of beneficial logging in this and other adjacent areas has severely compromised the fire safety of this National forest area.

Appropriate action as proposed in this project is urgently needed.

Road and access rehabilitation: The lack of funding for critical road maintenance has created significant environmental damage to the drainage ditches, culvert and catch basins.

This project will provide needed infusion of repair and maintenance activities associated with the project operations.

WE DESPERATLY NEED THIS TO OCCUR!

I do have one objection--- and that is: the Project is not as large as it should be! This project should cover double to triple the individual and total acreages described in the current and future activities.

We need more, not less Forest silviculture production and road maintenance.

I respectfully request notifications and meetings regarding future projects associated not only with the Dead Laundry proposal, but also those associated with the Toboggan / Cayuse areas.

Respectfully

Donald W. Jacklin
