Comments: I am in favor of this project. Lutsen is the best place to ski in MN and could use expansion and upgrades. Out west it is common place for the Forrest service to lease land to ski areas, Minnesota should do the same. Being an avid skier I would love for MN to have a destination ski area, it would bring jobs and tourism to our state and provide us with increased outdoor activity to enjoy the beautiful north shore. This possible expansion is very exciting and I hope it is able to move forward without delay.
