First name: Toivo

Last name: Mykkanen

Organization:

Title:

Comments: I have decades of mountain biking experience in the Canfield Trail System and have seen the damage that motorcycles cause after trail maintenance is performed. A non-motorized trail system would be a positive asset in that area for hikers and mountain bikers. The deep ruts and dips that motorcycles cause is not desired for non-motorized travel. Please do install and enforce non-motorized travel assets in your jurisdiction.

Sincerely yours, Toivo Mykkanen
