Comments: Hi there, Thank you for taking the time to read this. If we could all share these trails, that would be amazing. Sharing means not restricting one or the other. Hikers need to be just as respectful as mountain bikers, and dirt bikers. Hikers and mountain bikers don't have to pay anything to use these trails yet the motorized vehicles do and do the majority of the work to help the forest service out with clearing trails. Please don't separate us out and cause even more strife. Maybe add some signs instead to respect each other. Canfield started as a motorized mountain. Can we please keep it that way?
