Hello,

Thank you for your review of this project. As an avid skier AND hiker I fully support this project. Having extensively hiked and camped in this area, I believe that the Lutsen Expansion can be accomplished with minimal impact on the environment while also increasing positive use and access.

As an aside, my perspective also comes from that of a Board Member for one of our National Scenic Trails as well as someone whom has received the 100 volunteer award from the National Park Service. As such, land protection is a strong personal priority.

Thank you for your time and attention to this. I hope the Lutsen Mountains expansion is able to move forward.
