Comments: I support this expansion as both a winter visitor to Lutsen and as a regular user of the SHT. I agree that the expansion will help Lutsen continue to be a viable ski destination for years to come. The SHT is used year-round. Usage is lower in the winter, but there are still snowshoe and cross-country skiers that use the trail. I hope that access to the SHT will continue to be preserved even during the seasons that Lutsen is operating the new ski areas that the SHT crosses.
