Comments: Hello,

I am I support of expanding camping and single track resources at the huckleberry flats OHV area. I am passionate about OHV - dirt bikes in particular, proper forest management, and preservation of natural areas. I feel that adequate public OHV resources help minimize the impacts OHV recreation has by giving users an approved and managed area to ride. It is my hope that OHV areas continue to grow in proportion with Oregon populations and interest in OHV sports.
