Title:

Comments: Greetings.

My family has enjoyed the wonderful Huckelberry Flats OHV area. My wife and daughter have sparked an interest in off road riding and enjoy the area to develop their skills. We would appreciate the opportunity to enjoy this area with more friends and family. We are professional business people and we always clean up afterwards and clean up messes that others leave behind.

I strongly support the construction project alternative

I strongly oppose the "do nothing" alternative.

I support the Forest Plan changes needed to allow this expansion.

Thank you in advance for your consideration.

Mike Rasmussen
