Comments: Hi there, folks. I would like to add my bit of opinion on what would improve the Huckleberry Flats OHV area. I ride there several times a year and see it's a popular place.

For the style of riding I and my friends enjoy it would be helpful to include more challenging singletrack trails that are not accessible at all to anything but dirtbikes. If you keep it challenging the speeds will stay down and that would reduce the need for one way traffic, increasing each trail's variety thereby reducing the need for more and more trails. Obstacles like logs, tires, rocks and the such are definitely a plus. The more open a trail is people tend to get their kicks with speed. The new singletrack can be wound around within the existing trails to reduce the need for more acres too.

A second staging area would also be helpful.

Thanks for considering the public's input on this. I appreciate it.
