Comments: As an individual who is being increasingly taxed to support projects/services that provide no direct or indirect benefit to me personally, I fully support the Forest Service Plan to expand riding and camping options at Huckleberry Flats OHV. I reject the do nothing plan.

I routinely enjoy the benefits of PNW Forest Service lands, whether I am hiking, biking, camping or cycling with friends and family. Increasing camping options and facilities has the added benefit of allowing my female friends to participate and enjoy the forests.
