First name: Janet

Last name: Wyatt

Organization:

Title:

Comments: To National Forest Stewards:

Once again energy development is trying to go around or over the rules of the land. Roadless Rules were put in place for just that, no roads. Cutting 60 foot wide swaths through the forest would not only leave a giant scar but affect the wildlife that live and migrate through the forest. Please respect the laws put in place to keep our wild places wild. Thank you,

Janet Wyatt
