Comments: Sirs, in regards to the proposed access road in the HD Roadless area of Colorado, we ask the Forest Service to not consider this action as viable for this area. The HD area is important to us because it was last September we engaged in a wonderful backpack excursion there. The HD mountains were very inspiring to say the least. In addition, this area has some beautiful Ponderosa Pine groves as well as nice lowland range for big game.

Also, the Colorado Roadless Rule, as commissioned by President George W. Bush, placed this area under the protection for no surface occupancy. We urge the Forest Service to adhere to the Colorado Roadless Rule and prohibit any oil and gas leasing and its associated infrastructure, in the HD Mountains Roadless Area.

Please consider our thoughts and comments on this issue

Sincerely,

Clifford and Pearl Bove
