Comments: As someone who loves to come up to the breathtaking mountains, especially Summit County, I believe that Keystone's Bergman expansion will help skiers and bike riders experience more open terrain and see the beauty of this area and Keystone resort. I believe that this project could be a wonderful demonstration of the area's resiliency as the community recovers from Covid-19.

I would strongly suggest opening this beautiful landscape so more people can experience the peace and tranquility in a respectful way. I love nature and feel passionate in creating opportunities for more people to experience nature. Thank you.
