Comments: My family, friend and I do NOT approve of a 8.6 mile natural gas pipeline that cuts across part of the HD Mountains roadless area.

Scraping a 60-foot wide industrial corridor through a Roadless Area, simply runs roughshod over the law, simply to plow a pipeline across the land for the convenience of the oil and gas industry.

This is NOT acceptable. Please do NOT move forward with this action!

Thank you for your serious consideration!
