Comments: I live on the banks of this float. Our house goes from pristine, quiet and peaceful place, To feeling like we live on a highway, a water highway.

I am not for closing access to Stillwater floating, because I do it all the time and love it. But I am for no dogs and no glass and limited parking. I've seen the amount of water fowl, fish and wildlife drop dramatically in the last few years because of the people traffic.

There should definitely be NO DOGS!
