Comments: Please require that the Superior Hiking Trail be routed to a location that allows for year round use and access. I know that the Superior Hiking Trail Association has developed a potential reroute that would accommodate this.

I have no objection to Lutsen expanding and bringing more economic growth to the area but if it does so I believe that it should also bear the cost of a sustainable reroute of the Superior Hiking Trail that allows for year round access and use. I assume that any such reroute would also include a spur trail from the Lutsen recreation area as Lutsen does experience some direct financial benefits as a direct result of its proximity to the Superior Hiking Trail.
