Title:
Comments: Considering the bottom has fallen out of the gas and oil industry, it's a little ridiculous to put in a new pipeline for the benefit of the has industry. We need alternatives. Wildlife and the rest of the environment are already under siege. Another road destroys the peace and quiet by opening it up to all kinds of other motor vehicles. There needs to be protected places accessible to neighbors outside of elitist Durango. The HDs have a unique eco-system given their elevation and aspect. Enough destruction of wild places. Do your job and protect the forest. Stop pandering to corporate executives.
